

## CITY OF GRAYMOOR-DEVONDALE TREE PLANTING PROGRAM APPLICATION

The Graymoor-Devondale City Council has budgeted a limited amount of money to encourage residents to plant trees this fall. This is a first-come, first-served program. When the budgeted money is allocated, no further applications will be accepted. Each resident can get one tree per lot, which includes planting of the tree by the City's contractor. Planting location will be in an agreed upon location to ensure trees do not encroach on easements when fully mature. Residents can choose the tree species from the City's approved tree list (see next page). The City of Graymoor-Devondale will pay the contractor directly. Each resident, by signing this application, is agreeing to take care of the tree after planting, including watering for the first year. Each resident, by signing this application, is agreeing to give the City and its Contractor access to the resident's property to plant the tree and further holds the City harmless on any and all damages of any kind relating to the planting. All applications must be received by the **10<sup>th</sup> day of October, 2025**. Trees will be planted in January or February 2026, weather permitting.

\*The approved tree species and considerations for planting locations are on the second page of this application for review.

  - Ky Coffee Tree
  - Green Vase Zelkova
- 
- Includes tree and labor to install tree.
  - Trees and evergreens come with no guarantee.
  - The contractor will contact residents prior to planting.

## **CONSIDERATIONS FOR PLANTING LOCATION**

When selecting your tree and planting location, it's important to consider the following factors:

- City or public utility easements
- Sun exposure
- Wind direction and force
- Overhead or underground wires
- Proximity to home/structures
- Size of canopy when mature
- Tree form/shape
- Obstructing views
- Long term maintenance
